

ANKISH KUMAR

EDUCATION

UNIVERSITY

Under Graduation: Bachelor of Computer Science Engineering (B.TECH CSE (AI & ML)) September 2024 – June 2028.

1 Semester: 7.96 CGPA

SHREE AMBIKA 10+2 HIGH SCHOOL DHEKAHA SIRSA, EAST CHAMPARAN BIHAR

Senior Secondary

Passed: 2024

Percentage: 70.6%

SHREE AMBIKA 10+2 HIGH SCHOOL DHEKAHA SIRSA, EAST CHAMPARAN BIHAR

Secondary

Passed: 2022

Percentage: 76.2%

WORKING ON THIS PROJECTS

➤ Project Title

AI BASED HUMAN SAFETY SMART BRACELET

Role: IoT, Sensor Technology, Artificial Intelligence, Embedded Systems, Women & Human Safety

- Conceptualized an advanced smart wearable system (bracelet and ring) designed to automatically detect and respond to emergency situations such as rape, kidnapping, attempted murder, road accidents, and presence of weapons.
- The system will be fully automatic, capable of identifying threats without manual intervention by the user, and will:
 - Trigger an SOS alert
 - Share the user's real-time GPS location
 - Start emergency video recording
 - Notify nearby police stations or emergency contacts
- Proposed features include AI-based analytics, weapon detection via camera/sensors, heart rate and movement monitoring, voice-triggered commands, and IoT-based live communication.
- Currently working on the theoretical framework including system architecture, functionality mapping, risk analysis, and potential societal impact.
- Aims to provide a practical and life-saving solution to enhance public safety, especially for women and children.

ACHIEVEMENTS

- Any Online certification
 - CLOUD WEB SERVICE
 - DIGITAL KUSHALATA (MS WORD & MS EXCEL)
 - ETHICAL HACKING
 - NEW AGE BUSSINES MODEL

PROFILE

A passionate and creative individual aiming to build a dynamic career at the intersection of technology and storytelling. With a strong foundation in Artificial Intelligence and Machine Learning, combined with content creation experience on digital platforms like YouTube, I strive to create impactful, innovative, and engaging solutions that connect with people and solve real-world problems.

SKILLS

Technical Skills: (Sample)

- Programming Languages:
- C Programing language basic
- Linux administration 1 basic.

Soft Skills:

- Basic problem-solving abilities
- Effective communication and teamwork
- Singing
- Storytelling
- Content creator (On YOUTUBE)
- Motivator
